Directories in Print
Now online on Gale Directory Library

This award-winning directory is the most comprehensive source in its field, describing thousands of active rosters, guides and other print and non-print address directories published in the United States and worldwide. Directories in Print also provides information on the status of defunct and out-of-print directories and includes entries for some publications that do not contain directory-type information but are nevertheless likely to be looked for here. Unparalleled in scope, Directories in Print covers a wide range of subjects, including general business; manufacturing industries and commercial services; banking, insurance and financial services; advertising, marketing and public relations; health care services; law, military and government; associations, philanthropy, ethnic groups and religion; and many others. Each annual edition of this venerable resource features approximately 16,000 directories. Multiple editions are available by standing order, ensuring access to the most up-to-date information as well as historical data.

Entries describe directories with up to 29 points of information, including: directory title; descriptive information; alternate formats (in addition to print); publisher/compiler; full contact information including e-mail address and URL; information on coverage, number of listings and additional features; types of information included; languages (other than English); arrangement of directory; indexes available; pages; frequency; editor(s) name(s) and contact information; advertising information; circulation; former names; price; ISSN; ordering information; online access details; and more.

Real-world users might include:

- Business professionals searching for new customers can quickly generate a list of leads through state and local directories, targeting their lists geographically
- Individuals looking for employment opportunities in specific fields can easily create a contact list of sources of information in their area of expertise
- Individuals and families can research health care and educational opportunities in their geographic location and surrounding areas
- And much more

ABOUT GALE DIRECTORY LIBRARY

With Gale Directory Library, researchers can use state-of-the-art functionality to perform a range of data sorting, filtering and exporting. These innovative features, unlike anything seen previously from our directories, make Gale Directory Library the essential tool for research.

- Find contacts — Finding a company, person, publication (or other kind of entity) is easy. Basic search lets users quickly look up names, search by keyword, and browse the full text of your directory holdings.
- Generate lists, analyze trends — Export search results and use them in programs like Excel or Word, making the creation of mailing lists a snap.
- Cross-searchable — Search across our growing number of directory titles. Each directory can be searched individually by its own unique data fields, or search the entire directory collection.

Additional benefits of Gale Directory Library:

- Use it like a database; buy and own it like a book collection
- State-of-the-art search, sort and export features
- Available 24/7 from any Internet-connected computer
- Choose the directory titles you want, and own the data
- Print, e-mail or download individual entries
- Entries include hot-linked Web sites and e-mail addresses (when available)
- Export results to analyze data or generate mailing lists
- Includes more data than print version, when appropriate
- Marked items lists let you select entries to generate custom results
- Available backfiles provide historical data
- Growing list of available directories
