Prepare for the challenge of a changing world

The world is changing at an almost incomprehensible pace.

Researchers in your community depend on you to provide powerful tools for understanding the state of the world today. *Global Issues in Context* is a media-rich, content-driven, easy-to-use e-resource that spans the globe to bring essential and balanced information to readers seeking to understand crucial international issues and news headlines with a single search.

By tying together news, global viewpoints, reference, country information, primary source documents, videos, statistics and more, *Global Issues in Context* offers a rich analysis of critical issues ideal for your community of users.

**Each page is a portal, ensuring a balanced world view**

*Global Issues in Context* not only focuses on broad issues such as human rights, poverty, global warming and nuclear proliferation; it also permits a close appraisal of more specific issues like product safety in China, disaster relief in Haiti or genocide in Darfur.

**Mine the Earth’s richest resources for knowledge**

Newspapers, magazines and academic journals: 600 English-language titles from the world’s capitols and other key sources provide a comprehensive view

Reference Works: 80+ of the most respected reference titles from Gale and Macmillan offer basic background information

Web sites: Links to government and organization Web sites, such as Amnesty International, Human Rights Watch, give researchers an opportunity to take action based on their findings

Primary Documents: A valuable collection of original sources and media – podcasts, speeches and more – bring context to research

Statistics: Interactive and static graphs, tables, and charts providing empirical data to support results

△ More than 200 Country Pages provide an overview as well as perspectives on the land, its people, political and economic climate, geography and more

△ More than 280 Issues Pages, compiled by *Global Issues in Context* editors, provide an intellectual framework for understanding the topic and its impact around the world

△ Easy-to-use World Map. Students can click on a topic or country to view general information about it, related issues and headline news
