Major Pharmaceutical & Biotechnology Companies of the World
Now online on Gale Directory Library

Published by Graham & Whiteside Ltd., the Major Companies directories provide detailed information on the leading businesses worldwide. Major Pharmaceutical & Biotechnology Companies of the World covers thousands of major international companies active in pharmaceuticals and biotechnology, including drug research, development and marketing; agricultural technology; bioengineering; and many other fields.

Each annual edition of Major Pharmaceutical & Biotechnology Companies of the World profiles more than 4,070 businesses. Multiple editions are available by standing order, ensuring access to the most up-to-date information as well as historical data. Entries typically include: full company name; address, phone and fax numbers; e-mail and Web addresses (when available); names of management and board members; description of the company’s activities; parents, subsidiaries and agents; brands and trademarks; number of employees; financial information for the previous two years; principal shareholders; and more.

Real-world users might include:
- Business analysts can quickly locate detailed information on companies working in specific areas of biotechnology, focused on specific geographic locations around the world
- Job seekers can cross-search with other Major Companies directories to easily create contact and mailing lists to explore international opportunities in the pharmaceutical industry
- Business professionals can quickly access up-to-date data for competing or complementary companies, including detailed financial information
- And many others

ABOUT GALE DIRECTORY LIBRARY
With Gale Directory Library, researchers can use state-of-the-art functionality to perform a range of data sorting, filtering and exporting. These innovative features, unlike anything seen previously from our directories, make Gale Directory Library the essential tool for research.

- Find contacts — Finding a company, person, publication (or other kind of entity) is easy. Basic search lets users quickly look up names, search by keyword, and browse the full text of your directory holdings.
- Generate lists, analyze trends — Export search results and use them in programs like Excel or Word, making the creation of mailing lists a snap.
- Cross-searchable — Search across our growing number of directory titles. Each directory can be searched individually by its own unique data fields, or search the entire directory collection.

Additional benefits of Gale Directory Library:
- Use it like a database; buy and own it like a book collection
- State-of-the-art search, sort and export features
- Available 24/7 from any Internet-connected computer
- Choose the directory titles you want, and own the data
- Print, e-mail or download individual entries
- Entries include hot-linked Web sites and e-mail addresses (when available)
- Export results to analyze data or generate mailing lists
- Includes more data than print version, when appropriate
- Marked items lists let you select entries to generate custom results
- Available backfiles provide historical data
- Growing list of available directories
