A suite to meet the needs of today’s users

At Gale®, part of Cengage Learning, we listened to you — the librarians, administrators and media specialists who count on our world-class products to build your literary reference collections.

And we know you listen to your users: the students, faculty, professionals and general readers who look to online resources to facilitate around-the-clock research.

For you — and for them — we proudly announce unprecedented online access to three of Gale’s literary favorites.

Through digital technology, we deliver the familiar, engaging look and feel of three of Gale’s most popular print series … and add cross-searching capabilities to provide a more complete research experience.

On the cover: Alice Walker, Oscar Wilde and Kurt Vonnegut.
Now users can search — and cross-search — complete collections of:

- **Literature Criticism Online** — 30 years of backfile plus optional Standing Order

- **Something About the Author Online** — a reference favorite since 1971

- **Dictionary of Literary Biography Complete Online** — more than 400 volumes

Taken together, these references in print — more than 1,900 volumes and growing — would require hundreds of feet of shelf space! But now, users can access these collections from the library, home or anywhere they have Internet access.
How did the reviewers of the day greet “The Red and the Black”? How was the theme of fate received when “The Aeneid” was published? What is the modern perspective on “The Merchant of Venice” or the short stories of Raymond Carver? How do numerous views of Holden Caulfield contribute to the understanding of “The Catcher in the Rye”?

For both range and depth, researchers worldwide rely on Literature Criticism Online, a resource that brings together 10 of Gale’s most acclaimed literary series:

- **Contemporary Literary Criticism®** — authors currently active or who died after Dec. 31, 1999
- **Twentieth-Century Literary Criticism®** — major authors of 1900–1999
- **Nineteenth-Century Literature Criticism®** — major authors of 1800–1899
- **Shakespearan Criticism** — comprehensive coverage of Shakespeare
- **Literature Criticism from 1400 to 1800** — authors of the late-Middle Ages, the Renaissance and the Restoration eras
- **Classical and Medieval Literature Criticism** — major classical and medieval authors
- **Poetry Criticism** — poets of all eras
- **Short Story Criticism** — major authors of short fiction
- **Drama Criticism** — major dramatists of all eras
- **Children’s Literature Review** — the most influential authors of children’s literature

These exact facsimiles — reaching back 30 years — represent centuries of critiques covering authors whose work spans geography and history.

For students, researchers, history buffs and literature lovers, there’s no finer source than Literature Criticism Online to find commentary on classic and contemporary books, plays and poems.

Please note: Literature Criticism Online contains 100% of the introductory, contextual and principal works/further reading content and, on average, almost 95% of the reprinted criticism over the life of the series. However, from time to time, Gale is unable to obtain electronic display rights for certain items. In these cases, we continue to pursue rights and, when obtained, load new content into the collection.
